1509 BASMATI RICE
Versatile by nature.

Long grain. Aromatic character. For everyday and foodservice menus.

Available in:

- White
- Steam
- Sella

Indicative raw grain length: 7.8 – 8.0 mm

SUPER KERNEL BASMATI RICE
A classic Pakistani favourite.

Traditional aroma. Long, slender grain. For pulao and signature rice dishes.

Available in:

- White
- Sella

Indicative raw grain length: 7.2 – 7.4 mm

D-98 BASMATI RICE
Aromatic rice from Sindh.

Slender grain. Fragrant character. For everyday basmati dishes.

Available in:

- White rice

Indicative raw grain length: 7.0 – 7.2 mm

PK-386 RICE
Everyday versatility.

Long-grain non-basmati rice for everyday meals.

Available in:

- White
- Sella

Indicative raw grain length: 7.0 – 7.4 mm

IRRI-6 & IRRI-9 RICE
Built for broad demand.

Long-grain non-basmati options for wholesale and foodservice.

Available in:

- White
- Sella
- Broken rice

KNOW YOUR RICE
Choose the right form.

WHITE / RAW
Milled without parboiling.

STEAM
Confirm the processor's treatment and cooking profile.

SELLA / PARBOILED
Soaked, heat-treated and dried before milling.

Expert tip: Evaluate aroma, grain separation and texture on a cooked sample.

BUY WITH CONFIDENCE
Agree the grain. Approve the sample.

IDENTITY
Variety, origin and crop year

APPEARANCE

Know your grain. Choose with confidence.

A practical guide for rice buyers, importers and distributors

VARIETIES IN FOCUS

1121 • 1509 • 1692 • 1847

Reference varieties only — confirm availability and lot specifications.

01

COMPARE LIKE WITH LIKE

Paddy retains its husk. Milled rice does not. Compare grain measurements at the same processing stage.

02

LOOK BEYOND LENGTH

Review grain uniformity, broken percentage, colour, chalkiness and foreign matter.

03

TEST THE COOKED RESULT

Assess aroma, elongation, grain separation and texture using the same cooking method.

04

CONFIRM THE PROCESS

Specify white/raw, steam or sella/parboiled. Ask how the product has been processed.

05

AGREE THE SPECIFICATION

Record variety, origin, crop year, moisture, broken percentage and agreed tolerances.

06

DEFINE THE SHIPMENT

Confirm quantity, pack size, destination, delivery window, trade terms and documents.

THE BUYER'S ADVANTAGE

Choose against an approved sample and a written specification.

Appearance alone does not verify variety or guarantee shipment quality.

Build your rice enquiry with Zafar Rice Mills.
